

Request for Qualifications: Torrefaction Research and Development Partner

Addendum No. 1

June 30, 2014.

Contact person: David Carter, P.E., david.carter@humboldt.edu, tel. (707) 826-4306

The following modifications are made by addendum to the Request for Qualifications that was originally released on June 23, 2014.

Section 1, Summary and Background

Add the following text to the beginning of the third paragraph:

The original torrefaction partner for this work, Renewable Fuel Technologies (RFT), has withdrawn from the project. We are seeking a replacement for RFT.

Section 2, Scope of Work

Delete Item No. 1 in the numbered list and replace it, in its entirety, with the following:

- 1. Provide a torrefaction unit for project use with a capacity of approximately one ton per day, that is suitable for field operation and sufficiently durable so that it can be transported and protected from the elements during outdoor operation;*
